

Air Ceramic Window Film is an advanced clear ceramic window film that offers the ultimate in performance and clarity. This premium film is engineered with innovative ceramic materials that provide exceptional heat rejection, and UV protection, all while maintaining crystal-clear visibility through your car's windows. With its clear, non-reflective appearance, Air Ceramic is perfect for those who want the benefits of premium window film without altering the appearance of their vehicle.

Product Characteristics

Product	VLT	Visible light reflectance	Shading Coefficient (SC)	Solar Absorption	Total Solar Energy Rejected	UV Rejection	IRR (1025 nm)	Glare Reduction	Adhesive Type	Thickness	Liner Orientation
Air Ceramic 70	70%	7%	0.60	54%	50%	>99%	89%	25%	PSA	2.0 Mil	Out
Air Ceramic 80	78%	9%	0.66	46%	44%	>99%	68%	15%	PSA	2.0 Mil	Out
